

Marbling with Sonja Idema:

This one or two day session will touch briefly on the history of marbling and provide knowledge of skills and supplies needed to create lovely marbled patterned designs on paper. The workshop will be done in a “step-by step” fashion for your ease in learning the techniques of marbling onto paper which can later be used for cardmaking, book making and other such artwork. You will need to purchase your papers and prepare them before coming to the workshop. A supply list and homework instructions will be provided prior to the class date. This class is for beginners and as well as those who have some previous experience in marbling. Those with experience will be able to do extra work.
